Our vision:

„Be the #1 address for aerosol & environmental technology“

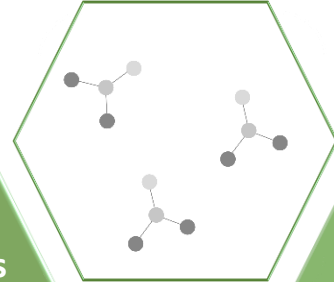

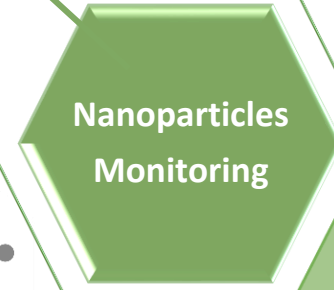

Our goal is to be your first point of contact when it comes to measurement tasks in the field of aerosol generation, characterization and filter testing.

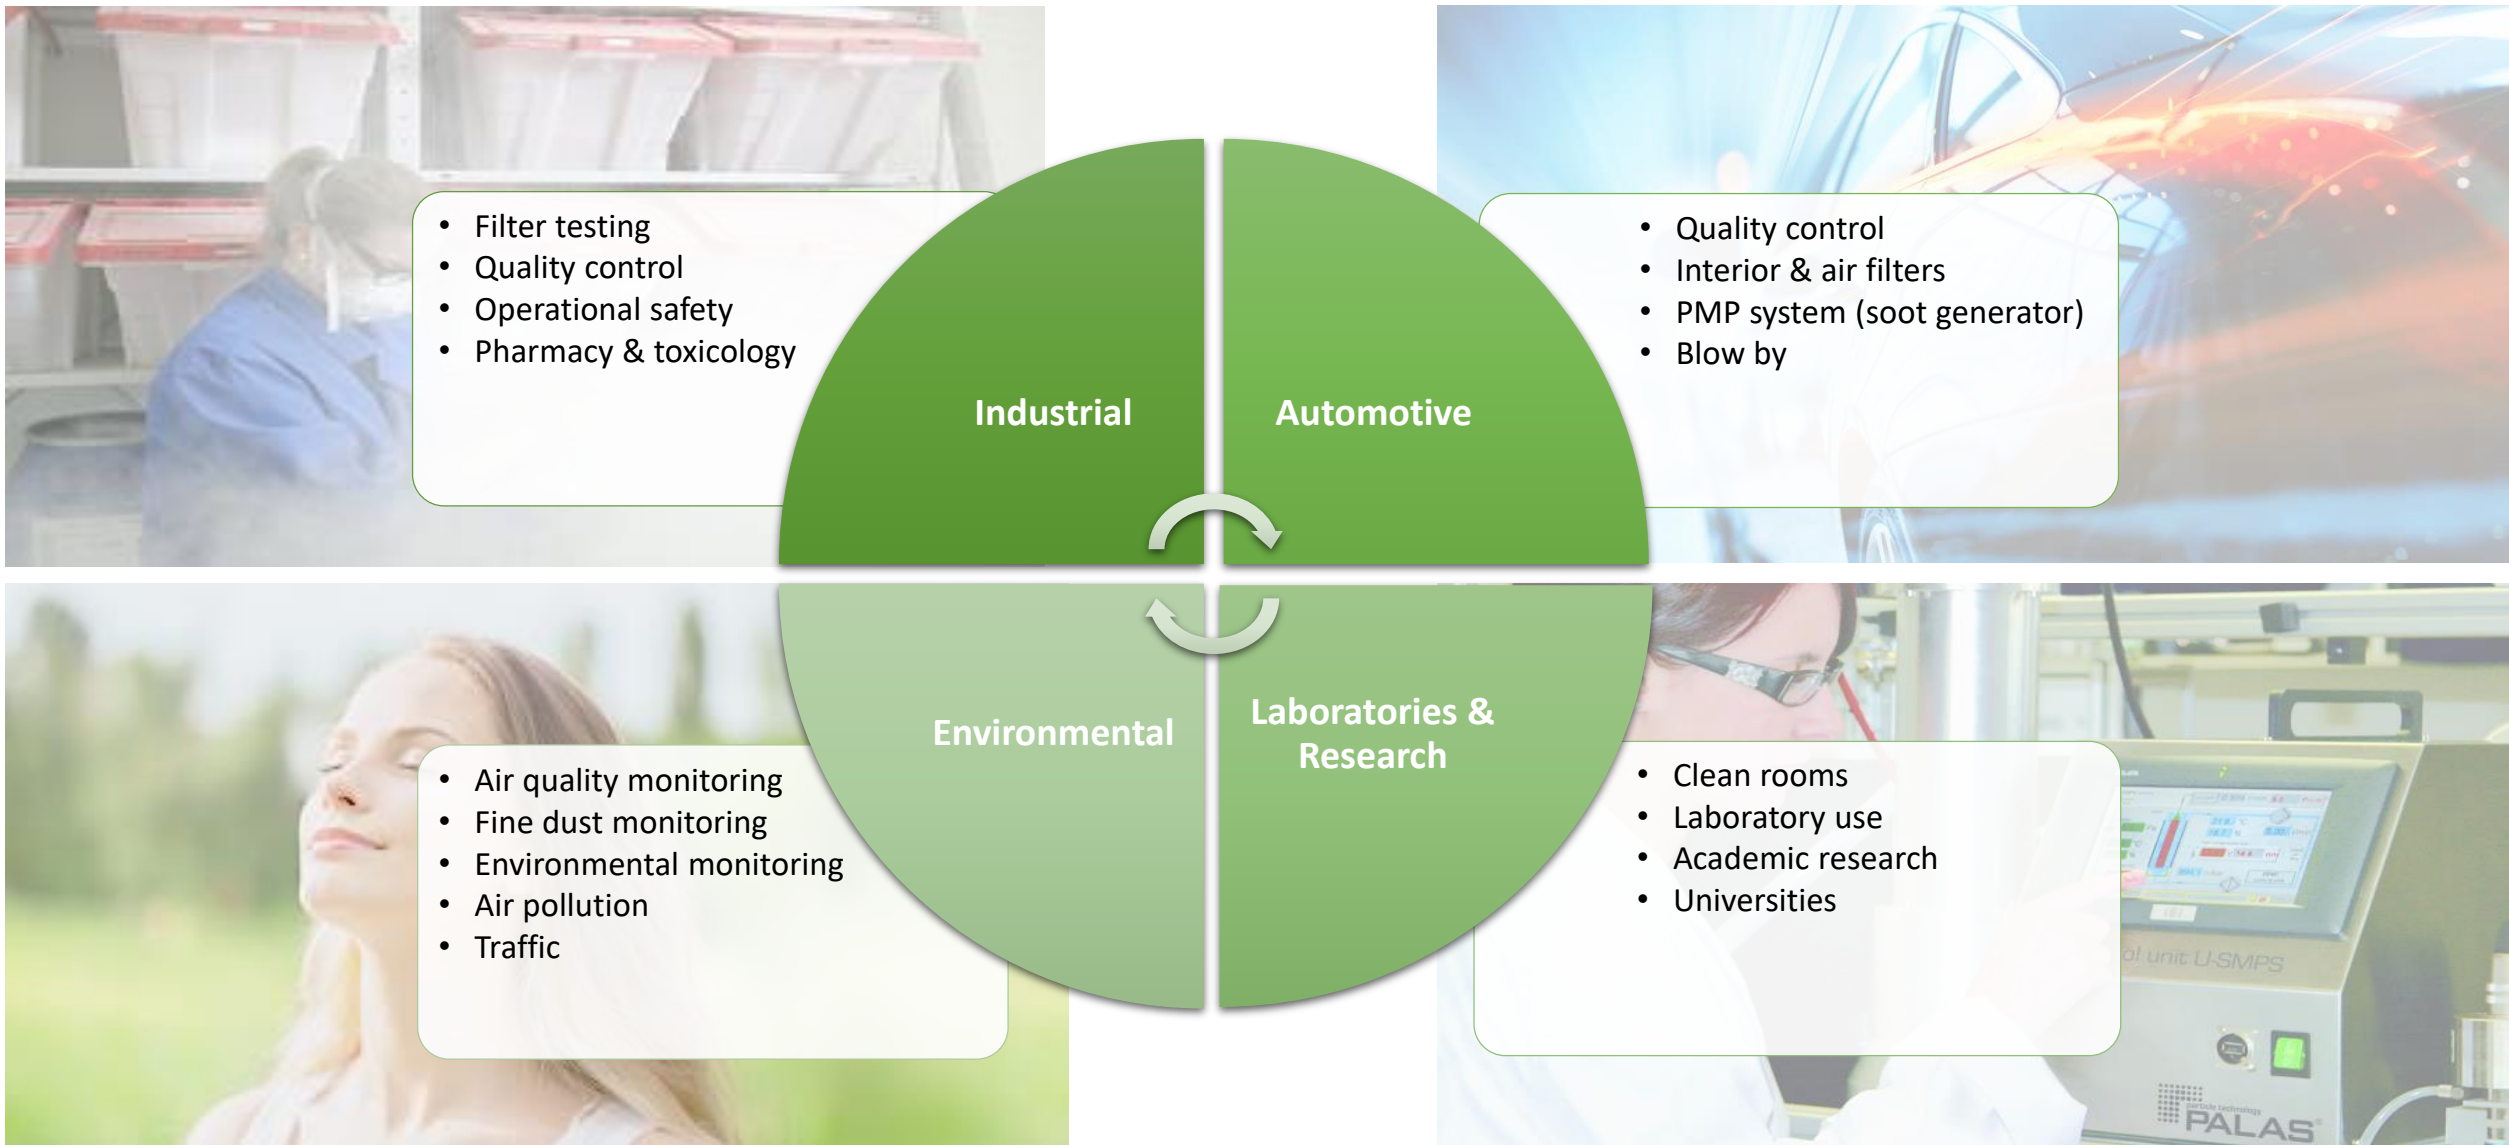

*„Our expertise lies in generating and measuring particles.
Thereby we count single particles and determine their characteristics.“*

- *Expertise* in the generation and measurement of *particles and aerosols*
- *Development, production* and *sales* of
 - high-precision devices for generating and characterizing particles
 - certified measuring devices for regulatory use
 - modular-built, application-specific test systems
- Transfer and know-how through *training courses and seminars*
